Objective

Results driven an **SAP ABAP** professional with 2 years of experience in developing **SAP S/4HANA reports, OData services, CDS views, RAP applications**, workflows, and enhancements. I specialize in translating complex business requirements into scalable, efficient, and compliant technical solutions.

Technical Skills

- **Programming** – SAP ABAP, OO ABAP, Smart forms.
- **SAP Fiori & RAP Applications** – CDS views, OData services (DPC/MPC), UI annotations, Fiori Elements-based apps.
- **Integration & Automation** – IDoc/ALE configurations, workflow translations, batch jobs, and process automation.
- **Performance Optimization**– Debugging, code tuning
- **Collaboration & Stakeholder Engagement** –: Partnering with SD/MM functional teams, documenting design, mentoring junior associates, and working in Agile sprints

Experience

Associate Software Engineer (SAP ABAP Cloud Backend Developer)

Accenture | AUG 2024 – Present | Chennai, India

Client: SANOFI

- Developed and implemented custom **ABAP reports, OData services, and CDS views** for **SAP S/4HANA**, enhancing data retrieval efficiency by 30% for sales and procurement teams.
- Designed and executed **RAP** applications, streamlining **Fiori-based** workflows for inventory management, reducing processing time by 40%.
- Collaborated with **SD/MM** functional teams to translate business requirements into scalable technical solutions, ensuring compliance with SAP best practices.
- Implemented **BADI** enhancements and **BAPI** integrations for seamless data exchange between SAP modules, improving data accuracy by 25%.
- Automated **IDoc/ALE** configurations and workflow translations, enhancing integration efficiency.

Key Responsibilities

- Analyzed client requirements and business workflows; created **technical solutions, CRC & HLD** documents.
- Participated in **Scrum meetings** to track project and task progress.
- Analyzed user stories and **identified impacts and risks**.
- Debugged and **fixed defects** within project deadlines.
- Prepared **documentation for production releases** and supported deployments.
- **Optimized** applications for **better performance**.
- Coordinated feature releases across TMS, LATAM, and environments.

Projects

Sanofi – TMS Roll-out & LATAM

- **SAP ABAP, Smart forms, IDoc/ALE configurations and Debugging, code tuning.**
- Developed custom reports, services, and views to drive business efficiency
- Optimized ABAP code and reports for peak performance
- Designed and delivered Fiori apps for inventory management and sales tracking
- Collaborated with cross-functional teams to deliver scalable, compliant solutions

Achievements

- Improved sales order processing time by 35% through custom **ABAP** enhancements.
- Received **Recognition & of Appreciation from Sanofi clients** For TMS Roll-out Sprint
- Delivered a **Fiori app** for inventory tracking, reducing manual efforts by 50%.

Education

B.Tech – Computer Science and Engineering

Audisankara college of engineering & Technology | 2024 | GPA: 8.7 / 10.0

Certifications

- **SAP ABAP Cloud Backend** – SAP
- **Security Administrator** – SAP
